PROMOTION RULES

Discount codes do not combine.

You can "bet" on a given team only once - if a client buys 10 accounts with the SPAIN code, it counts as one "bet."

You can bet on a team only once - if they advance through the semifinals and finals, the trader receives two codes (for the semifinal and final).

The maximum total value of codes is +40 EUR (10 EUR x2 for the semifinals, 20 EUR for the final).

When a trader buys an account, they can decide which code to use. By using it, they also participate in the game. If their team wins in the semifinals, we send the trader a code for +10 EUR; if their team also wins the final, the trader receives an additional +20 EUR in a voucher.

The promotion does not include Mini Pepper, Chilli Pepper, and Jalapeno. Regarding the second account. Accounts purchased during the promotional period is an account that must be completed by the indicated time - 14.08 in order to receive a second one of the same kind.

If it is not possible to receive a second identical account (due to the maximum number of accounts in the programme), the account will be added as soon as it is technically possible. Such an account will not be forfeited.

The coupons we understand as "bets" are not real bets and the abbreviation "bets" is only intended to simplify the form of play.

All accounts purchased during the course of a match where an advantage is possible will not participate in the fun.

Vouchers will be sent out up to 48h after the match.
